Bloomington, IN (October 22, 2019) – The Captain Janeway Bloomington Collective has announced a crowdfunding campaign to create and install a monument to the *Star Trek: Voyager* captain recognizing her future birthplace.

The design includes a bronze bust of Captain Kathryn Janeway atop a Starfleet insignia-shaped limestone base, plated with stainless steel. The monument will include an informational display outlining the character's origin and connection to Bloomington. It will be installed along Bloomington's B-Line Trail.

The crowdfunding campaign through [Patronicity](#) aims to raise \$12,500 in donations by December 21, 2019, in order to receive a matching grant from the [Indiana Housing and Community Development Authority's \(IHCDA\) CreatINg Places](#) program.

The project is supported by Bloomington's Artisan Alley and the City of Bloomington with the permission of CBS Studios.

Supporters can donate to the project at www.patronicity.com/janeway.
